

Spitfire Originals Felt Piano

 Muse Sounds Edition

Spitfire Originals Felt Piano

 Muse Sounds Edition

The **Spitfire Originals Felt Piano - Muse Sounds Edition** is crafted exclusively for the Muse Sounds engine: derived from the Spitfire Audio “Orig!nals Felt Piano” library and is carefully optimised for playback from notation.

The Spitfire Originals Felt Piano library features an upright piano with soft felt placed between the hammers and the strings. It is designed to give a softer more intimate sound to the piano.

Instrument Included

Felt Piano

Presets

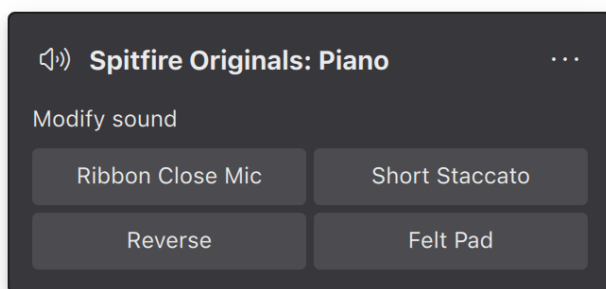

Ribbon Close Mic

Short Staccato

Reverse

Felt Pad

Accessing Playing Techniques in MuseScore

Many of the playing techniques in MuseScore Studio are accessible through the **Staff Text** feature. To apply a playing technique, first select the starting note for the technique, then assign Staff Text to it. Next, click on the speaker icon above the staff of

the assigned note to open the Playing Techniques menu. From there, you can select the desired playing technique. If there are more than eight techniques available, you may need to scroll to see all options.

Spitfire Originals Felt Piano

 Muse Sounds Edition

Playback Details

The Felt Piano was sampled with several velocity layers and repetition samples.

Try experimenting with the different presets! The “Felt Pad” preset might just fit beautifully into your piece!

 Tip: Try combining Felt Piano with another piano and adjust the mixer volume levels to combine the two tones to taste!

About Muse Sounds Editions

Muse Sounds Editions are exclusively created editions of sample libraries, designed to work with the Muse Sounds Engine, found inside MuseScore Studio and StaffPad.

These editions are derived from the same content, but are not compatible with Kontakt or VST versions of the same library.

The Muse Sounds concept is to distill the technical and sonic achievements of complex, vast sample libraries, which were often created to be triggered via complex MIDI programming, into a simple, musical and intuitive experience for composers who work with notation.

The Muse Sounds team is proud to work with prestigious sample developers, and to bring these beautiful sounding creations to life for the notated page.

Thank you for supporting Muse Sounds!
