Vienna Bass Trombones

 Muse Sounds Edition

The **Vienna Bass Trombones - Muse Sounds Edition** is crafted exclusively for the Muse Sounds engine: derived from Vienna Symphonic Library's acclaimed Big Bang Orchestra: Zodiac - Supermassive Ensembles, and carefully optimized for playback from notation.

This free collection brings the bold character of Vienna's finest brass performances to the world of notation-based scoring. Featuring a huge 9 player bass trombone ensemble, Vienna Bass Trombones offers everything you need for powerful low brass lines. Captured at the iconic Vienna Synchron Stage, the sound is rich, majestic, and perfectly balanced to sit effortlessly within any orchestral context. This collection brings depth, clarity, and punch to your orchestrations—completely free.

Instruments Included

Bass Trombones (9 players)

Key Articulations

Sustains

Marcato

Accent

Staccatos

Playback Details

The sustains are sampled with multiple dynamics, from pp to a blasting fff, and smoothly morph between them to produce realistic crescendos and decrescendos. For short notes, there are repetition samples, enhancing realism during repeated notes.

Vienna Bass Trombones

 Muse Sounds Edition

i Tip: While you can combine Vienna Bass Trombones with any other sample library, using Vienna Bass Trombones with other Vienna Series instruments will give a natural balance across all instruments from the common recording space and microphone placements.

About Muse Sounds Editions

Muse Sounds Editions are exclusively created editions of sample libraries, designed to work with the Muse Sounds Engine, found inside MuseScore Studio and StaffPad.

These editions are derived from the same content, but are not compatible with Kontakt or VST versions of the same library.

The Muse Sounds concept is to distill the technical and sonic achievements of complex, vast sample libraries, which were often created to be triggered via complex MIDI programming, into a simple, musical and intuitive experience for composers who work with notation.

The Muse Sounds team is proud to work with prestigious sample developers, and to bring these beautiful sounding creations to life for the notated page.

Thank you for supporting Muse Sounds!
