Audio Imperia Nucleus

Muse Sounds Edition

Audio Imperia Nucleus

Muse Sounds Edition

The **Audio Imperia Nucleus - Muse Sounds Edition** is crafted exclusively for the Muse Sounds engine: derived from the Audio Imperia "Nucleus" and carefully optimised for playback from notation.

Nucleus is a complete set of symphonic essentials including ensembles, soloists and sound design elements. This library is well-rounded and can handle most score types while excelling at fast articulate action and trailer music.

What's Included

Brass
Choir
Harp
Percussion
Soloists
Sound Design
Strings
Woodwinds

Instruments

Brass
- Low Brass
- 2 Tubas
- 3 Trumpets

Oohs
Staccatos with assignable lyrics:
    Ahh, Ooh, Cre, Do, Mi, Nus, La, Cri, Mo, San, Tus

Percussion
Rolls
Crescendo Rolls
Hits

Audio Imperia Nucleus

Muse Sounds Edition

Accessing Presets in MuseScore Studio

The presets in MuseScore Studio are accessible through the **Staff Text** feature. To select a preset, first select the starting note for the preset, then assign Staff Text to it. Clicking on the speaker icon above the staff will open the Sound Flags menu. From there, you can select the desired preset. If there are more than eight available, you may need to scroll to see all the options.

> ⓘ   Tip: For a unified sound, particularly for loud action music, consider using all Nucleus sounds in a score.

Choir Lyrics

Sustained lyrics can be assigned to either Ahh or Ooh (with variations of Ah and Oo). By default, the **Ahh samples will play if no lyrics** are assigned.

Staccato lyrics can be assigned to:
- Ahh
- Ooh
- Cre
- Do
- Mi
- Nus
- La
- Cri
- Mo
- San
- Tus

Assigning Lyrics

Lyrics are assigned in MuseScore Studio by selecting the note and pressing **COMMAND + L** on MAC or **CONTROL + L** on PC. While entering lyrics, pressing the SPACE BAR moves the lyric entry to the next note.

Playback Details

The orchestral instrument and choir sustains are sampled with multiple dynamics, from pp to ff, and smoothly morph between them to produce realistic crescendos and decrescendos. For short notes, there are multiple repetition samples, enhancing realism during repeated notes.

About Muse Sounds Editions

Muse Sounds Editions are exclusively created editions of sample libraries, designed to work with the Muse Sounds Engine, found inside MuseScore Studio and StaffPad.

These editions are derived from the same content, but are not compatible with Kontakt or VST versions of the same library.

The Muse Sounds concept is to distill the technical and sonic achievements of complex, vast sample libraries, which were often created to be triggered via complex MIDI programming, into a simple, musical and intuitive experience for composers who work with notation.

The Muse Sounds team is proud to work with prestigious sample developers, and to bring these beautiful sounding creations to life for the notated page.

Thank you for supporting Muse Sounds!
