

Berlin Strings

 Muse Sounds Edition

Berlin Strings

 Muse Sounds Edition

The **Berlin Strings - Muse Sounds Edition** is crafted exclusively for the Muse Sounds engine: derived from the Orchestral Tools flagship library "Berlin Strings" and carefully optimised for playback from notation.

Featuring five meticulously captured string sections, Berlin Strings offers a vast array of articulations and an exceptional dynamic range, solidifying its reputation as a premium orchestral strings collection. Mid-sized ensembles ensure exceptional detail and definition.

Recorded on the renowned Teldex Scoring Stage in traditional seating positions, Berlin Strings delivers a natural, balanced sound that seamlessly blends with other Berlin Series collections.

Instruments Included

Violins 1
Violins 2
Violas
Celli
Basses

Key Articulations

Advanced Legato: Ensures smooth, connected notes during regular playing.
Fast Runs Mode: Triggered for notes played in quick succession.
Sustains with vibrato
Unmeasured Tremolo
Staccatos and Spiccato
Accent
Marcato
Portato (slurred staccato)
Trills: Minor and major 2nd.

Pizzicato

Col Legno

Additional Articulations

Flageolet: Sustained, Staccato, Tremolo

Senza Vibrato (without vibrato): Sustained.

Portamento

Accessing Playing Techniques in MuseScore

Many of the playing techniques in MuseScore Studio are accessible through the **Staff Text** feature. To apply a playing technique, first select the starting note for the technique, then assign Staff Text to it. Next, click on the speaker icon above the staff of the assigned note to open the Playing Techniques menu. From there, you can select the desired playing technique. If there are more than eight techniques available, you may need to scroll to see all options.

Playback Details

By default, these strings play back with a moving legato. For phrases where individual notes are faster, the playback automatically switches to a special “Fast” mode, which blurs the sound, mimicking real-life player techniques.

The sustains are sampled in up to three dynamics, from pp to ff, and smoothly morph between them to produce realistic crescendos and decrescendos. For short notes, there are up to seven repetition samples, enhancing realism during repeated notes.

 **Tip:** For faster writing, consider using shorter, more defined samples, such as marcatos. By writing "marcato" in the text, all notes until the next text instruction will play back using this articulation. You can optionally hide this text if you don't want it visible in the printed score. If you need additional speed or dexterity, give this a try!

About Muse Sounds Editions

Muse Sounds Editions are exclusively created editions of sample libraries, designed to work with the Muse Sounds Engine, found inside MuseScore Studio and StaffPad.

These editions are derived from the same content, but are not compatible with Kontakt or VST versions of the same library.

The Muse Sounds concept is to distill the technical and sonic achievements of complex, vast sample libraries, which were often created to be triggered via complex MIDI programming, into a simple, musical and intuitive experience for composers who work with notation.

The Muse Sounds team is proud to work with prestigious sample developers, and to bring these beautiful sounding creations to life for the notated page.

Thank you for supporting Muse Sounds!
