 Muse Sounds Edition

---

The **Vienna Vibraphone - Muse Sounds Edition** is crafted exclusively for the Muse Sounds engine: derived from Vienna Symphonic Library's acclaimed Synchron Mallets II and carefully optimized for playback from notation.

This collection brings the artistry of VSL's flagship samples to the world of notation-based scoring. Vienna Vibraphone delivers an exceptionally detailed and natural sound expertly optimized for seamless playback. Recorded at the world-class Vienna Synchron Stage, this instrument captures the full tonal richness and shimmering resonance of a beautifully maintained vibraphone—with motor on and off variants, mallet choices, multiple dynamic layers, and natural release samples. Whether you're writing delicate atmospheric textures or rhythmically complex passages, Vienna Vibraphone blends seamlessly into any orchestral or hybrid setting, offering instant realism and musical depth right out of the box.

## Instruments Included

Vibraphone (Musser)

## Key Articulations

Soft Mallets Sustain  
Soft Mallets Tremolo  
Soft Mallets Muted  
Hard Mallets Sustain  
Hard Mallets Tremolo  
Hard Mallets Muted  
Motor On and Off for all articulations

## Accessing Playing Techniques in MuseScore

Many of the playing techniques in MuseScore Studio are accessible through the **Staff Text** feature. To apply a playing technique, first select the starting

## Playback Details

The vibraphone was sampled with multiple dynamics, from ppp to fff. There are also several repetition samples, enhancing realism during repeated notes.

 **Tip:** While you can combine Vienna Vibraphone with any other sample library, using Vienna Vibraphone with other Vienna Series instruments will give a natural balance across all instruments from the common recording space and microphone placements.

## About Muse Sounds Editions

Muse Sounds Editions are exclusively created editions of sample libraries, designed to work with the Muse Sounds Engine, found inside MuseScore Studio and StaffPad.

These editions are derived from the same content, but are not compatible with Kontakt or VST versions of the same library.

The Muse Sounds concept is to distill the technical and sonic achievements of complex, vast sample libraries, which were often created to be triggered via complex MIDI programming, into a simple, musical and intuitive experience for composers who work with notation.

The Muse Sounds team is proud to work with prestigious sample developers, and to bring these beautiful sounding creations to life for the notated page.

Thank you for supporting Muse Sounds!
