 Muse Sounds Edition

---

The **Muse Percussion** library is crafted exclusively for the Muse Sounds engine by the Muse Sounds team and carefully optimised for playback from notation.

By creating our Muse Libraries in-house, the Muse Sounds team has managed to keep tight controls over how the instruments are sampled with the exact design purpose of superior playability from notation.

Muse Percussion contains a battery of orchestral percussion instruments with an assortment of playing techniques.

## Key Articulations (not available in all instruments)

Hits

Rolls

Mallet choices

Tremolo

## Accessing Playing Techniques in MuseScore

Many of the playing techniques and options, such as **mallet choices**, in MuseScore Studio are accessible through the **Staff Text** feature. To apply a playing technique, first select the starting note for the technique, then assign Staff Text to it. Next, click on the speaker icon above the staff of the assigned note to open the Playing Techniques menu. From there, you can select the desired playing technique. If there are more than eight techniques available, you may need to scroll to see all options.

## Playback Details

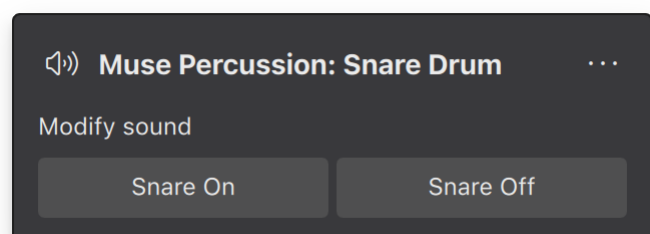

The percussion mapping makes extensive use of symbols and the percussion mapping features in both MuseScore Studio and StaffPad.

**Mallet choices** are accessible with Staff text.

**Rolls** typically require notes to be assigned with unmeasured tremolo.

**Snares on and off** are selectable with Staff text.

**Rim shots** and various other articulations are usually listed at note entry.

## About Muse Sounds

Muse Sounds is a new label of high quality playback instruments for MuseScore Studio and StaffPad.

Painstakingly recorded and edited specifically for the custom and revolutionary playback engine that powers these applications, they are capable of rendering incredibly lifelike results which breathe realism and emotion into your compositions.

The first releases from Muse Sounds cover the symphony orchestra, choral voices and essential guitars. These beautifully crafted instrument packs are available exclusively in Muse Hub, many of which are free.

Thank you for supporting Muse Sounds!
